

Thara Sivanandam

M.S. Cybersecurity | Drexel University | GPA 3.89 / 4.0 | Philadelphia, PA

Cloud Engineer | DevSecOps Engineer | Python Developer | Cloud Security Analyst

Email: thara0523@gmail.com | LinkedIn: linkedin.com/in/thara-sivanandam | GitHub: github.com/tharasivanandam | Portfolio: tharasivanandam.github.io

Summary

M.S. Cybersecurity graduate with hands-on AWS cloud infrastructure, Python automation, network security, and DevSecOps experience. Independently provisioned 10+ end-to-end AWS environments and automated 3 operational pipelines. Authorized to work full-time in the United States under F-1 OPT through December 2026.

Core Skills

Cloud	AWS, EC2, S3, IAM, VPC, Lambda, CloudWatch, Cognito, API Gateway, DynamoDB, Terraform, CloudFormation
Development	Python, Bash, Java, Flask, FastAPI, REST APIs, modular architecture, structured logging
Security	Wireshark, Burp Suite, Qualys, Scapy, IAM least-privilege, SIEM, incident response
DevOps	GitHub Actions, CI/CD, Linux, Docker, Infrastructure as Code, DevSecOps

Experience

AWS Academy Cloud Foundations - Drexel University | Philadelphia, PA | Jan 2026 - Apr 2026

- Provisioned 10+ complete AWS environments across EC2, S3, IAM, VPC, Lambda, and CloudWatch.
- Configured CloudWatch dashboards with custom metrics, threshold-based alarms, and log filters.
- Evaluated lab architectures against the AWS Well-Architected Framework before finalising configurations.
- Deployed event-driven Lambda functions triggered via S3 and API Gateway across 3 lab exercises.

Network Security and Digital Forensics Lab Researcher - Drexel University | May 2025 - Aug 2025

- Configured and maintained 5 isolated Linux-based network lab environments for security testing.
- Designed and executed ARP poisoning and Man-in-the-Middle simulations with 3 validated countermeasures.
- Drafted shared configuration templates tested across all 4 cohort environments.
- Authored a technical report adopted as a reference by the full cohort and cited in 3 peer submissions.

Python Developer Intern (Remote) - Global Techno Solutions | Chennai, India | Jun 2021 - Aug 2021

- Audited 5 legacy Python modules causing runtime failures across 3 downstream pipelines.
- Built a modular logging and exception-handling library adopted team-wide.
- Automated 3 recurring manual data-processing workflows end-to-end.

Projects

SafePlay - Cloud-Native Child Safety and Parental Monitoring Platform

Solo Cloud Architect and Product Owner | Dec 2025 - Present

Architected a multi-service AWS platform using Cognito, Lambda, API Gateway, DynamoDB, S3, CloudWatch, GitHub Actions, OAuth2, IAM, and Python with security embedded at every layer.

Sophia - Python-Based Intelligent Virtual Assistant

Solo Developer - Full Lifecycle | 2024

Delivered a modular Python virtual assistant with OS-level application control, reminder scheduling, to-do management, NLP command parsing, health symptom logging, structured logging, and exception handling.

Education

Master of Science in Cybersecurity - Drexel University, Philadelphia, PA | GPA 3.89 / 4.0 | Mar 2025 - Sep 2026 (Expected)

B.E. in Computer Science and Engineering - Velammal Institute of Technology, Tamil Nadu, India | GPA 3.43 / 4.0 | Oct 2020 - Jun 2024

Certifications

AWS Certified Cloud Practitioner (CLF-C02) - Exam Preparation - In Progress 2026

Google Cybersecurity Professional Certificate - Completed November 2024
